DETAILED ACTION

1. The Office has withdrawn all rejections raised in the Final Rejection mailed 10/16/2006.
2. After a thorough search, and in light of the prior art of record, claims 1, 13, 27, 39, 49, 58 and 64 (renumbered as 1-7) are allowed.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a tool for automating the translation of data between EDI formats used by trading partners that does not require a user to build a complex mapping between formats.

The closest prior art, Schroeder et al (US 2002/0099735), is directed to a method for translating eCommerce documents exchanged between trading partners using inbound and outbound "supermaps". Further, the cited Vedula et al (US 6,823,495) reference is directed to a graphical user interface for creating a mapping between source and target objects, said mapping to be compiled into code for translating source documents into target document.

These references do not disclose a receiving user input of an EDI standard, a version of the standard, a transaction set and mapping rules for the standard data model.

Art Unit: 2162

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
